

**Lectori Salutem**  
Memorial volume for Erzsébet Mollay

On 15 November 2019, one year after her death, the Department of Dutch Studies at Eötvös Loránd University organised a conference in commemoration of our dear colleague, Erzsébet Mollay. Many Hungarian and foreign friends and colleagues from the field of Dutch, Scandinavian and German studies gathered in Budapest to commemorate the ‘Mother of Hungarian Dutch Studies’ with an inspiring conference. Since many friends and colleagues could not attend the conference in person, the idea arose to include this colourful collection of contributions in a memorial volume. We are confident that this volume, which contains a wide range of contributions from many fields of Dutch, Scandinavian and German Studies, will be a worthy token of our gratitude and appreciation for the countless things we owe to Erzsébet and her tireless efforts in the field of Hungarian and international Dutch Studies.
